

### Key information

- We congratulate 155 centres for receiving their certificates after solving all pending queries. Thank you very much for your successful participation in the POSE trial!
- All remaining 22 centres from Belgium, France, Israel and Germany are currently under review by our data management. We ask you once again to answer the queries as soon as possible.
- The sooner all queries are solved, the sooner the database can be closed to start statistical analysis.

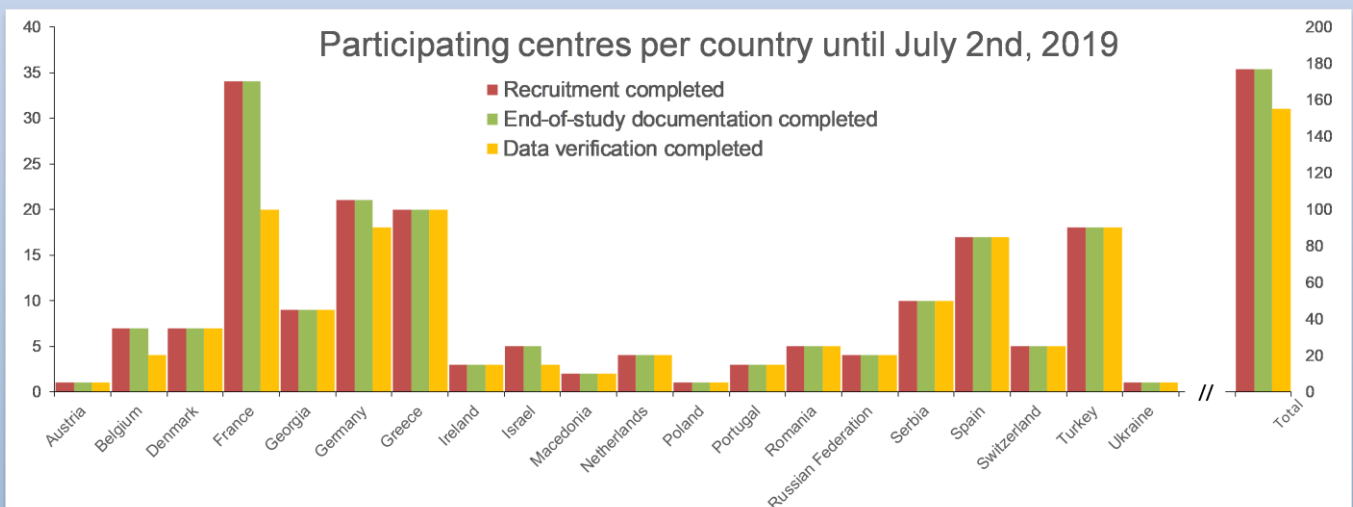

### We thank you for your feedback

- Already 90 centres participated in our online survey to provide feedback on the POSE trial, on any issues that arose for you during the study and on the potential research questions you might like to see addressed in future work.
- We would be very grateful, if one person from each registered study centre could take about 7 minutes time to complete the survey, regardless of whether you recruited or not. **Last chance for participation is Monday, 8<sup>th</sup> July 2019.**

Please click on the link to take the survey:

<https://www.surveymonkey.com/r/FHFZCJZ>

We look forward to hearing from you!

Best wishes

Mark Coburn (Study Director)

Ana Kowark (Study Coordinator)
